That, I am , worker for. Martinez & Sons Trucking On October 16, 2014 at about 9:30 am. we were working from one field that was toward to work on to field G. After about 30 minutes of working there on airplane started spraying on the field next to us and the wind was blowing to where we were working. I smelled a strong odor. and started feeling bad, I had headache, itchy eyes and threw up. After about 15 minutes my supervisor came and asked if we were ok and reported the ones that had any symptoms. Then we were taken to the office and we washed down and took off extra clothing we were wearing, right after that we went to the emergency room there we took a long shower and put on clean clothes. I was released the same day but went back on Saturday to the hospital because I still had a headache. Today I feel well and have been working the entire week.

I hereby swear/affirm that the foregoing statement is true to the best of my knowledge.
